

Dreamy Hollow 2022/23 News

Farewell to 2022; Looking Forward to 2023 and the “Last Phase”

Our warden team have been great this year, helping keep up our standards and helping us deal with the ups and downs of 2022. It's always heartwarming to read in 5star reviews how helpful and welcoming our wardens have been. Helping people have holidays in the true meaning of the word makes the hard work all worthwhile. They also kept our campers safe enforcing a fire ban during an exceptional heatwave that saw serious wildfires in the local area, our grass scorched to brown and some of our trees die in the heat. But at least our mature Oaks gave our campers shelter from the scorching Sun.

The Queens speech at the opening of Parliament was a memorable day because we were told in confidence that Dreamy

Hollow was listed as a monument of national importance offering this special site legal protection for the future.

Legal protection is the culmination of the years of hard work of so many people, but we are particularly grateful to Tony Armstrong and John Smith for their detailed research that revealed the history of the trenches and to our re enactor Mark Taylor (Sgt Taylor) for bringing this history to life during school visits and fundraising events.

Quietly some research will continue until we have all 500 names in our memorial book, but as the trenches are now listed in perpetuity, no more will the Lovat Scouts who dug our trenches be forgotten, for at the going down of the sun and in the morning we will remember them.

Dreamy Hollow 2022/23 News

The Queens Jubilee was a once in a lifetime and we planted a memorial Walnut Tree donated by Helena Aldis of Docking Heritage Group and hung out the bunting. Little did we know that soon after we would be mourning the passing of an exceptional monarch whose like we may never see again.

It was also the year our faithful Pippin lost her fight against dementia. Pippin's pitch will always remind us of her.

Our accommodation unit was delivered and work began on incorporating it into the office structure to help blend it into the woodland with Cedar cladding and Chestnut Shingle which should in time weather into a very log cabin look. Our wardens will be staying overnight in the cabin at peak times and it will be available to book at other times as a holiday let.

Almost Wild Camping for Adults and Children

The new section of the site opens formally in 2023 and a range of pitches deeper in the woods will be available in as an adult only section of the woodland. This will enable our adult campers to have quieter holidays during high season.

We will continue to offer our very popular existing pitches to families, our large pitches especially popular with family groups. Dreamy Hollow is a great place for a bit of parent child bonding toasting marshmallows or building a den.
